# ROSE BUSHES, PATENTED VARIETIES

Prices on the patented list are "per variety", regardless of total number of bushes of all varieties on your order; e.g.: booking 20 American Flagship No. 1 in order totalling 500 roses, to be divided in equal parts for fall and spring delivery, earns the 20 rate.

# Standard (Non-Patented) Rosebushes,

Nurserymen familiar with natural variety differences, (growing habit, ease of propagating, normal cane breakage, percentage grading No. 1) understand that these differences affect the expenses and losses considered in Arp's system of pricing, as the plant patent owners do, BY VARIETY.

TOTAL NUMBER OF BUSHES IN YOUR ANNUAL ORDER DETERMINES THE QUANTITY RATE APPLIED TO ANY SHIPMENT OF NON-PATENTED ROSES.

# Time-Honored Garden Queens

Frequent pinching or topping thru early growing season contributes to balanced bushes of many low-branching canes. Another item on Arp's year-round labor bill. Best rose crops are never "laid by".
